

CALLING ALL STUDENTS

Student Compost Cooperative

Help make UF ZERO WASTE by 2015

Learn the secrets of composting success

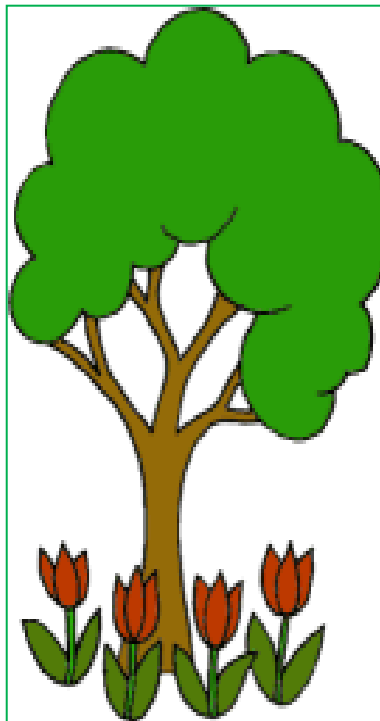

Reduce landfill growth and greenhouse gas emissions

DO YOU ...

- Live on campus?
- Live in an apartment?
- Want to reduce your ecological footprint?

THEN YOU CAN ...

- Use our special food waste carriers
- Use our composting facilities
- Save the Earth one food scrap at a time
- Join a worthy community cause

WHEN:

Open facilities for use at your convenience.
No appointment necessary. Just drop in and drop off!

WHERE:

Dr. Wilkie's Lab
Energy Research & Education Park
2610 SW 23rd Terrace, Bldg. 246
<http://campusmap.ufl.edu/> Search:
ENVIRONMENTAL MICROBIOLOGY LAB

DETAILS:

- Containers for you to take home
- You can learn some simple keys to successful composting
- Workshops (Monthly and pending) designed to facilitate participation and education

Responsibility for one's impact on this planet is becoming a necessity. In order to promote this change, the Bioenergy and Sustainable Technology Laboratory is offering food waste containers, composting facilities and education to the campus community. Positive change leads to empowerment and community pride. Come on out and learn what it's all about!
